Millions Spent on Frauds.

Over \$15,000,000 annually is poured into the coffers of those who exploit and advertise fake consumption cures according to a statement issued by the National Association for study of Prevention of tuberculosis; and for this vast sum the victims receive nothing in return, but often are permanently injured and in the majority of cases chated out of the chance of a real cure. Worse still most of this money is paid by those who can least afford it.

The Association has investigated several hundred so-called "cures" and "treatments" for tuberculosis now being advertised throughout the country, and finds that more than \$3,000,000 a year is being spent in soliciting the patronage of the public. On examination, it has been found the great majority of these "cures" contain harmful and habit-forming drugs such as morphine, opium and chloroform. None of them will cure consumption. The only cure for this disease is fresh air, rest, and wholesome food. All the "cures" that attempt to destroy the tubercle bacillus without these, or to stop the disease in some mysterious way are branded as frauds and impositions.

Postmasters to Meet.

The Annual District Meeting of the 3rd, and 4th, Class Postmasters, will be held in the City of Lexington on Saturday July 30th, 1910. All Postmasters of the above Class are requested to be present at this Meeting. The District is composed of the following Counties: Anderson, Bath, Boyle, Bourbon, Bracken, Boyd, Breathett, Casey, Clark, Carter, Fayette, Franklin, Fleming, Garrard, Grant, Harrison, Jessamine, Lawrence, Mercer, Madison, Mason, Montgomery, Nicholas, Powell, Pendleton, Rowan, Robertson and Scott.

Democratic Convention Called.

At a meeting of the Executive Committee of this Congressional district, composed of chairmen of the executive committees of the respective counties composing said district, held at Beattyville of June 28th, 1910, at 1 o'clock p. m., pursuant to the call of F. A. Lyon, Sr., chairman of the district, at which meeting a quorum was present, J. C. Potts, of Estill county, was elected secretary of the meeting. The following resolution were then offered and duly adopted, to-wit:

"First—It is ordered that mass conventions be held at the courthouse in each of the respective counties composing the Tenth Congressional district at 1 o'clock p. m. on Saturday, the sixth day of August, 1910, for the purpose of selecting and instructing, if desired, delegates to represent the said counties at the general convention hereinafter provided for.

"Second—Said delegates so selected at the various county conventions shall assemble in general district convention to be held at Mt. Sterling on Tuesday, the ninth day of August, 1910, at 1:30 o'clock p. m., for the purpose of nominating a Democratic candidate for Congress in said Tenth congressional district of Kentucky, to be voted for at the November election, 1910, and to adopt such resolutions and transact such business as may properly be the subject of consideration by said convention.

"Third—All persons who are devoted to the principles of the Democratic party and desire to see those principles succeed, and who, by participating in said county conventions, will feel in honor bound to support the Democratic nominee in the next November election, and who will be

legal voters in the precinct in which they now live, if they continue to live in the same precinct until the November election, 1910, shall have the right and are invited to participate in said county conventions.

"Fourth—in said general convention each county shall be entitled to one vote for each two hundred or fractional part over one hundred votes that were cast in said county for William J. Bryan for President in 1918.

A Three Cornered Race.

It is practically settled that the Hon. W. T. Stafford, of Jannies Creek, Johnson county, will be a candidate for Congress in the Tenth district against John W. Langley, and his name will appear on the election ballot in November. It is not yet known under what party name or device Mr. Stafford will have his name placed. He says he has always been a Republican and is still a Republican, but is opposed to Taftism, Cannonism, Aldrichism, etc., and stands for the people as against the trusts, etc.

Matt Tracy Dead.

Henry Mattison Tracy, aged twenty-seven years died Saturday morning at the residence of C. L. Smith near this city of brights disease after a lingering illness. Funeral services were held at the St. Norton Presbyterian church Sunday morning by the Rev. R. A. McCenagh and the remains interred in the beautiful cemetery adjoining. Mr. Tracy, who had led a wayward life in earlier days, had joined the Christian church and professed conversion.

Property Not Sold.

J. W. Wilkerson, receiver of H. C. Warmouth, bankrupt, advertised and Saturday offered for sale the business house on Sixth ave. and one-half interest in 150 acres of land on Black creek. There was not a bid and the sale was declared off. The property was required to bring three-fourths its value. Had the receiver advertised this sale in the Times he, doubtless, could have reached a buyer.

The bankers of the Tenth Congressional district are looking with interest to July 12, when the first annual meeting of Group Ten of Kentucky Bankers' Association will be held at Winchester. The Group will be formally organized at this meeting.

J. Campbell Cantrell won the Democratic nomination for Congress in the 7th district over Senator Claude M. Thomas by about 2,500 majority in the primary election held in that district Saturday.

J. A. Boone, D. S. Haggard, J. F. Winn and B. S. Bartlett, of Winchester, came up Saturday and attended the meeting of the R. A. M. in this city that night.

Coulebursts on the headwaters of the upper Kentucky and Big Sandy rivers caused more than a million dollar loss to property and growing crops.

Resolutions.

Whereas, the Grand Master of the Universe has removed from our earthly Lodge to His celestial home on high our beloved Brother Robert Russell, who departed this life on June 17, 1910, therefore be it,

1st Resolved, that while we recognize and humbly submit to the decree of Him who doeth all things well, yet we deplore the loss of our friend and brother, and extend to his stricken family and friends our deepest sympathy in this their time of great sorrow. As a tribute to his memory we could say no more than to say he was a K. of P. in all that the word implies.

2nd Resolved, that we extend the widow and family our heartfelt sympathy with the assurance that we mourn their loss, and ever remembering that we are traveling that undiscovered country from whence no traveler returns.

3rd Resolved, that these resolutions be entered upon the records of our Lodge and that a copy of them be sent to his family as a token of our sympathy and that they be published in the Clay City Times.

The Cause of It.

We were talking to a prominent Republican of this city the other day who has an acquaintance at Detroit, Mich. He said people there could go over into Canada and buy a suit of clothes and save from \$7 to \$20 on the suit, and could buy the same sugar over there for one cent less on the pound and, admitted that the tariff was the cause. The next day we picked up one of our Republican exchanges and it gave an alarm on account of the hundreds of thousands of American people moving to Canada and settling on farms. In Canada it is too cold to successfully grow corn. Wheat is the principal crop. The dominion has many other natural disadvantages that the United States has not got. Then what is attracting them? It is explained above. The necessary articles that the farmer has to buy, such as sugar, coffee, and all groceries not produced by the Canadian farmer is from 20% to 100% cheaper than in the United States. Then the Canadian farmer does not have to make so much in order to accumulate wealth as does the farmer of the United States.

For instance a farmer living in Canada can come over into Chicago and buy a mowing machine for \$32.50, but a United States farmer must pay for this same mowing machine \$45.00. The Times thinks this rigid discrimination against home people is unfair and not right. Then it is no wonder Canada is settling hundreds of thousands of our best people. Our manufacturers treat them so much nicer when they get over there; and no wonder the government must get excited. The manufacturers must sell our people over in Canada the same article at from 50% to 100% cheaper than they sell them to

us at home. Most of these farmers moving over there we are glad to learn are Republicans who have grown tired of their own medicine. They are Democrats but don't know it until they get to Canada.

In his recent tour of Europe Colonel Roosevelt managed to steer clear of Spain. The Colonel we suppose thought the boys could not forget his treatment to the Spanish soldiers during the Cuban war. The Colonel it will be remembered, used to boast of having the direct experience of shooting down one of the Spanish soldiers, and it later developed that he shot him in the back while the troops were on a run. Where does the honor of such bravery come in?

Vital Washington News.

Why is it that the price of articles on which the tariff was not advanced, has increased since the passage of the Payne-Aldrich bill?

I put this question to United States Senator Moses E. Clapp of Minnesota, one of the genuine progressive Republicans of Congress.

"I can answer that question," replied Senator Clapp, "in less than two minutes, and no one will successfully contradict my statement.

"In the Payne-Aldrich revision of the tariff the rates on scores upon scores of articles were advanced. Those increases have advanced the price of everything; yes, have increased the price of articles on which the tariff was not changed.

"You can't raise the cost of living to a man who is producing something to sell, without forcing that man to raise correspondingly the price of what he has to sell.

"Suppose both of us are in business, and that each has to use what the other produces. Suppose the tariff on the article I handle is increased, while the tariff on the article you handle is not increased. By virtue of my increased protection, I force you to pay increased prices. What are you going to do about it? What must you do about it? Answer: you must increase the price of what you have to sell. And that's just the way it works out all along the line, and in the end all of the increases fall upon the broad shoulders of the consumer.

"But you will hear it said constantly with reference to something on which the price has been advanced, 'Oh, that isn't in tariff at all.' That increase has nothing to do with the tariff. But the fact is tariff revision upward on a few articles reaches all along the line.

"The new tariff law has cost, and is costing the American people millions of dollars, in increased cost of living. And if the Payne-Aldrich bill had been beaten, those millions would have been saved to the people."

Congress has authorized two more battleships. It is estimated each ship will cost \$12,000,000 to build, and \$1,000,000 a year during its 20-year life-time

to maintain. The aggregate ultimate cost of each ship, as a matter of fact, is, therefore \$32,000,000!

The cost of each ship would buy 8,000 farms at \$4,000 each; it would construct 1,600 churches throughout the country at \$20,000 each; it would furnish the means of education through a four-year course to 16,000 men or women at \$500 per annum; it would build and equip 50 manual training schools with necessary tools and appliances, giving a trade to 75,000 young people each year; it would build a macadam road between Chicago and New York, or build and equip 40 Y. M. C. A. buildings of magnificent proportions, each building accomodating the young men in a city of 200,000 people!

* * *
The eve of Congressional campaigns is at hand. It looks as if the Republican party proper will boldly attempt to bluff the American people on these propositions:

That Aldrichism is a good thing for the country.

That "Uncle Joe" belongs to Abraham Lincoln type of statesmen.

That the Payne-Aldrich tariff bill was the "best tariff bill ever passed" and is a God-send to the consumers.

That the expenditure of more than double the sum used by Cleveland to run the government is really necessary for "party solidarity."

* * *
Here is the platform the average Democratic candidate for Congress will present to the people:

Lower duties on the necessities of life.

An income tax that a large part of the burden of the cost of government may fall upon those best able to bear it.

Reciprocity with Canada and our best customers.

Repeal of Section 2 of the Aldrich act that forces tariff wars and retaliation.

Election of Senators by direct vote.

Old-time democratic economy in public expenditures.

Restoration of popular government in House of Representatives.

* * *
Gilson Gardner, a newspaper correspondent who joined the Roosevelt party in Egypt and accompanied it to Washington, and who had almost daily interviews with the ex-President, stakes his reputation on the prediction that the Taft administration has been so thoroughly bad that Roosevelt will not endorse it in any shape, form or manner. He declares Taft deserted the Roosevelt policies cold-bloodedly. In connection with Gardner's statement, it is significant that Roosevelt should have been this long on American soil following his long absence in Africa without having seen the man he made president or having mentioned him in any way. Roosevelt and Taft have not met since March 4, 1910.

* * *
Hear ye! Hear ye! Senator Boss Nelson Wilmot Aldrich stands pat on his original statement that the government is wasting \$300,000,000 a year. Senator Beveridge, fretting under Aldrich's indictment of the Republican party on the charge of gross and wanton extravagance, sought to discredit Aldrich's statement.

But Aldrich declared he knew what he was talking about, and that if he could run the government as a business man, "without let or hindrance from anyone," he could save the people \$300,000,000 a year. Querv: Is Aldrich contemplating joining the ranks of insurgents? It would be interesting to know what the "stand pat" Republican editors of the country think of Aldrich's statement on Republican wastefulness.
